810-748-7770

Fair Haven, Michigan

Proficient web developer skilled in HTML5, CSS3, JavaScript, PHP, and MySQL, with experience in Java and C#. Eager to apply technical expertise to create efficient and clean applications.

PROJECTS

Chrome Extension: Calendar — JavaScript, HTML, CSS - *Creator* 2025

Created a Chrome extension that allows users to view, add, and manage calendar events directly in their browser.

- Built an intuitive interface for event creation, editing, and deletion
- Used local storage for saving events to enable offline access

Chrome Extension: To-Do List — JavaScript, HTML, CSS - *Creator* 2025

Developed a standalone Chrome extension for task management with features like adding, completing, and deleting tasks.

- Added task prioritization and categorization features for better organization
- Implemented persistent task storage using browser local storage
- Designed a clean, responsive UI for easy task tracking
