Fair Haven, Michigan

Entry-level web developer with an Associate of Applied Science in Software Development and experience building responsive websites, Chrome extensions, and game mods. Skilled in HTML, CSS, JavaScript, PHP, MySQL, Java, and C#, with a strong interest in front-end development and user-friendly design.

PROJECTS

Bosskhaz.com - HTML, CSS, JavaScript

Web Developer

2026

Designed and developed a responsive website for a small cannabis genetics business to showcase available plant varieties and company information.

- Created a clean, mobile-friendly interface with straightforward navigation
- Organized product information into an easy-to-browse layout
- Deployed and maintained the live website at Bosskhaz.com

Chrome Extension: Calendar - JavaScript, HTML, CSS

Creator

2025

Created a Chrome extension that lets users view a calendar and add, edit, and delete notes for specific dates directly in their browser.

- Built an intuitive interface for creating and managing dated notes
- Used browser local storage to save notes between sessions
- Visually marked dates containing saved notes

Chrome Extension: To-Do List - JavaScript, HTML, CSS

Creator

2025

Developed a standalone Chrome extension for task management with features for adding, completing, deleting, and organizing tasks.

- Added task prioritization and categorization features
- Implemented persistent task storage using browser local storage
- Designed a clean, responsive interface for easy task tracking

EDUCATION

St. Clair County Community College - Associate of Applied Science in Software Development

Port Huron, MI
