PROFESSIONAL SUMMARY

Software Development graduate with hands-on experience troubleshooting Windows PCs, hardware, software, networking, peripherals, and system configuration. Methodical problem solver experienced with component isolation, event-log and crash-dump analysis, driver troubleshooting, BIOS configuration, scripting, and technical documentation. Seeking an IT Support, IT Technician, or Software Developer role.

TECHNICAL SKILLS

IT Support	Hardware/software troubleshooting; workstation setup; component installation and upgrades; drivers; peripherals; user-focused problem solving
Systems	Windows 10; Event Viewer; crash-dump analysis; BIOS/UEFI configuration; application installation; system configuration
Networking	TCP/IP fundamentals; LAN; Ethernet; Wi-Fi; routers; network adapters; basic connectivity troubleshooting
Tools	PowerShell; Command Prompt; Git; GitHub; Visual Studio; VS Code; Azure DevOps
Development	HTML; CSS; JavaScript; TypeScript; React; PHP; MySQL; Java; C#; .NET; Go; REST APIs; JSON; XML

HANDS-ON TECHNICAL EXPERIENCE

PC Hardware & Windows Troubleshooting

- Built, upgraded, configured, and maintained custom Windows desktop systems, including component installation and peripheral setup.
- Diagnosed intermittent system instability using component isolation, Windows Event Viewer, crash dumps, driver testing, BIOS configuration, and hardware replacement.
- Troubleshot network adapters, Ethernet and Wi-Fi connectivity, displays, audio devices, input devices, and application issues.

Scripting & Technical Problem Solving

- Used PowerShell and Command Prompt to inspect systems, review logs, manage files, and automate repeatable tasks.
- Applied structured testing, documentation, and debugging techniques across hardware, operating-system, and software problems.

SELECTED PROJECTS

Bosskhaz.com - Client Website

Designed, deployed, and maintained a responsive business website using HTML, CSS, and JavaScript; tested navigation and presentation across screen sizes.

Published Browser Extensions & Game Modifications

Built and maintained Chrome extensions and C#/XML game modifications; investigated runtime and compatibility issues, managed dependencies, tested updates, and documented releases.

PowerShell Folder Automation Utility

Created a PowerShell utility to automate moving and organizing folders, demonstrating command-line scripting and practical workflow automation.

EDUCATION & CERTIFICATION

Associate of Applied Science in Software Development

St. Clair County Community College | Port Huron, MI

May 2026

HTML Developer Certification

W3Schools

2023
